PROFILE

A motivated Full-Stack Web Developer with close to 1 year of experience in building web applications. Skilled in both frontend and backend development, with stronger expertise in crafting responsive user interfaces using HTML, CSS, JavaScript, and modern frameworks. Comfortable working with databases and APIs to deliver end-to-end solutions. Passionate about writing clean, maintainable code and continuously learning new technologies to refine user experiences.

EDUCATION

Bachelor's Degree in Data Science

2020 – 2024

VNU-HCM University of Information Technology

SKILLS

Technical Skills

- Languages: JavaScript, TypeScript, Python
- Frontend: Nextjs, React, HTML5, CSS3
- Backend / API: Node.js, REST API, FastAPI
- Databases: PostgreSQL, MySQL
- Data Science / ML: Scikit-learn, Keras (LSTM), Pandas, NumPy, Matplotlib
- Tools & Version Control: Git, GitHub, Jupyter Notebook
- Ability to use AI tools to assist with coding

Soft Skills

- Problem-Solving & Analytical Thinking: Strong ability to debug, optimize, and design efficient solutions.
- Communication & Collaboration: Clear communicator, experienced in working across teams (development, design, marketing).
- Time Management & Prioritization: Able to handle multiple tasks, deliver under deadlines, and adapt to agile workflows.
- Continuous Learning & Adaptability: Quick to adopt new technologies, proactive in self-learning.
- Attention to Detail: Focused on code quality, testing, and reducing bugs to ensure high-standard deliverables.

WORK EXPERIENCE

Frontend Developer Intern

06/2024 – 12/2024

Power5 Technology 

Thu Duc, Ho Chi Minh City

- Assisted in designing and optimizing the user interface of the LMS system. Developed responsive web components that improved usability and engagement.
- Collaborated with designers to support the creation of visually appealing interfaces.

IT Supports

01/2025 – 08/2025

NB Trade 

District 7, Ho Chi Minh City

- Designed and optimized the company's WordPress website (SEO and responsive design).
- Provided technical support across departments.

- Built and implemented marketing workflows, including AI-powered automated content creation and publishing.
- Developed a data management system for order tracking on the SharePoint platform.
- Automated data synchronization and reporting between departments using Microsoft Power Automate.

PROJECTS

NBTrade – Company Website (WordPress)

06/2024 – 08/2025

Web Developer / IT Support for Marketing

Website: nbtrade.com.vn 

- Developed and optimized the company's profile website using WordPress to strengthen branding and support marketing activities.
- Tech & tools: WordPress (custom theme/plugin), CSS, HTML, JavaScript, PHP, cPanel (hosting & database management).
- Designed and customized the Admin UI, enabling the marketing team to easily publish blogs, news, and products without technical skills.
- Optimized on-page SEO (URL structure, meta tags, dynamic sitemaps, canonical, schema markup).
- Improved website performance with caching, lazy loading, and resource optimization, enhancing user experience.
- Ensured a responsive design across desktop, tablet, and mobile.
- Integrated Google Analytics, Yoast SEO, and social media plugins, along with a workflow for automated blog publishing to support marketing.

Book Store Web Application

08/2025 – 09/2025

Full-Stack Developer (Front-end focus) – Personal Project

GitHub: github.com/OneSun02/book-store 

Website: book-store-phi-wheat.vercel.app 

- Developed an e-commerce web application for online book sales, focusing on UI/UX optimization, SEO, and security.
- Tech stack: Next.js, TypeScript, CSS Modules, Node.js, PostgreSQL, Vercel.
- Implemented user authentication and authorization with JWT for secure account management.
- Designed and developed features including product listings, search, filters, and detailed book pages.
- Built a shopping cart and order management system with real-time updates, ensuring seamless user experience when adding/removing products.
- Created a fully responsive interface, optimized for both desktop and mobile devices.
- Integrated CI/CD pipelines with GitHub Actions and deployed on Vercel for fast, reliable updates.

Personal Web Portfolio

09/2025 – 10/2025

Full-Stack Developer (Front-end focus) – Personal Project

GitHub: github.com/OneSun02/web-portfolio 

Website: web-portfolio-299v.onrender.com 

- Built a personal portfolio website to showcase skills, projects, and professional experience.
- Tech & tools: HTML, CSS, JavaScript, FastAPI (backend), Gemini API.
- Designed a modern, responsive UI optimized for both desktop and mobile.
- Integrated a Gemini API chatbot to allow interactive Q&A with users.
- Developed the backend using FastAPI, handling requests from the frontend and managing communication with the Gemini API.
- Optimized the frontend with lazy loading and minified CSS/JS to improve performance and user experience.
- Organized the project with clear separation of frontend and backend code, ensuring maintainability and scalability.
- Used GitHub for version control, supporting rapid deployment and change tracking.
